

## Mgmt 677: Integer and Nonlinear Optimization

### MANAGEMENT INFO SYSTEMS/PROD OPER MGMT

Current developments in optimization theory and their application to problems in operations management. Emphasis will be on integer and nonlinear programming applications.

Prerequisite requirements for this course may also be satisfied by consent of instructor.

3 Credits

### Prerequisites

- [Mgmt 660: Production and Operations Management](#) (Minimum grade: C)

### Instruction Type(s)

- Lecture: Lecture for Mgmt 677

### Subject Areas

- [Management Information Systems, General](#)

### Related Areas

- [Management Information Systems and Services, Other](#)
