

Ent 101: Social Entrepreneurship

Mission-driven businesses harness the power of the marketplace to solve social, environmental, or economic problems and/or create social value. The goal of this course is to illustrate the process of social entrepreneurial problem solving, arm students with some of the practical skills required for a value-centered career, and empower them as change agents to make a difference starting right now. The students will bring their passion, and the course will provide the tools and opportunity to practice social entrepreneurship through community engagement.
