

Bisc 649: Methods in Molecular Biology

A laboratory course designed to acquaint the student with advanced instrumentation of molecular biology.

3 Credits

Instruction Type(s)

• Lecture/Lab: Lecture/Lab for Bisc 649

Subject Areas

• Molecular Biology

Related Areas

- Anatomy
- Cell/Cellular Biology and Anatomical Sciences, Other
- Cell/Cellular Biology and Histology
- Cell/Cellular and Molecular Biology
- Developmental Biology and Embryology
- Neuroanatomy
