

Phcl 341: Human Pathophysiology I

The students will understand the consequences of disease on normal physiology. An in-depth study of the pathophysiology condition will equip the students to assess multi-organ system dysfunction. These basic understandings will enable the students to progress through the curriculum with a knowledge and analytical base necessary to excel during their practice experiences.

3 Credits

Prerequisites

• Course is only available to first year students in the professional degree program

Instruction Type(s)

• Lecture/Lab: Lecture/Lab for Phcl 341
