

## **Csci 353: Introduction to Numerical Methods** **COMPUTER & INFORMATION SCIENCE**

Numerical solution of problems; problem analysis, algorithm design, coding, testing, interpretation of results; use of software packages on mainframe computers.

3 Credits

### **Prerequisites**

- [Math 263: Unified Calculus & Analytic Geometry III](#) \$target.descriptions.MinimumGrade\$
- Csci 111 or Csci 251

### **Instruction Type(s)**

- Lecture: Lecture for CSCI 353

### **Subject Areas**

- [Computer Science](#)
