

# Chem 402: Inorganic Chemical Laboratory CHEMISTRY & BIOCHEMISTRY

Synthesis, identification and study of physical and chemical properties of selected inorganic compounds.

1 Credit

#### **Prerequisites**

- Chem 402 Requires: One Way-Co-Requisite Chem 401
- Pre-Requisite: 24 Earned Hours

#### One-way corequisites

• Chem 401: Inorganic Chemical Principles

### **Instruction Type(s)**

• Lab: Laboratory for Chem 402

# Course Fee(s) Chemistry

• \$150.00

## **Subject Areas**

Inorganic Chemistry

#### Related Areas

- Analytical Chemistry
- Chemical Physics
- Chemistry, General
- Environmental Chemistry
- Forensic Chemistry
- Organic Chemistry
- Physical Chemistry
- Theoretical Chemistry
