

Math 574: Probability MATHEMATICS

Topics introduced in Math 573 will be covered at a more sophisticated mathematical level. Additional topics will include the Borel-Cantelli Lemma, the Strong Law of Large Numbers, characteristic functions, fourier transforms.

Prerequisites

• Math 573: Applied Probability (Minimum grade: C)

Instruction Type(s)

• Lecture: Lecture for Math 574

Subject Areas

• Statistics, General

Related Areas

. Mathematical Statistics and Probability
