

Math 679: Statistical Bioinformatics **MATHEMATICS**

Introduction to bioinformatics, an interdisciplinary study that combines techniques and knowledge in mathematical, statistical, computational, and life sciences in order to understand the biological significance of genetic sequence data.

3 Credits

Prerequisites

- [Math 575: Mathematical Statistics I](#) (Minimum grade: C)

Instruction Type(s)

- Lecture/Lab: Lecture/Lab for Math 679

Subject Areas

- [Mathematical Statistics and Probability](#)
- [Biostatistics](#)
