

## **M E 399: Thermodynamics II** **MECHANICAL ENGINEERING**

Continuation of Engr 321. Application to vapor and gas cycles; introduction to performance, introduction to statistical thermodynamics.

3 Credits

### **Prerequisites**

- [Engr 321: Thermodynamics](#) \$target.descriptions.MinimumGrade\$

### **Instruction Type(s)**

- Lecture: Lecture for M E 399

### **Subject Areas**

- [Engineering Physics/Applied Physics](#)
- [Engineering, General](#)
