

# Math 565: Introduction to Dynamical Systems II

This course is the second semester of an introduction to the theory of dynamical systems. The course will cover some aspects of linear maps and differential equations, nonlinear systems, conservative dynamics, one-dimensional dynamics, and connections with ergodic theory and number theory.

## 3 Credits

#### Prerequisites

Math 564: Dynamical Systems \$target.descriptions.MinimumGrade\$

## Instruction Type(s)

Lecture: Lecture for Math 565

## **Subject Areas**

Analysis and Functional Analysis

#### **Related Areas**

- <u>Algebra and Number Theory</u>
- Geometry/Geometric Analysis
- Mathematics, General
- <u>Topology and Foundations</u>

The University of Mississippi is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award certificates and baccalaureate, master's, specialist, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, call 404-679-4500, or visit online at www.sacscoc.org for questions about the accreditation.
