

# Csci 526: Parallel Computing COMPUTER & INFORMATION SCIENCE

This course explores the conceptual, theoretical, and practical issues raised by developing software for parallel environments and architectures. Students will write several programs using different languages and platforms.

3 Credits

## **Prerequisites**

Csci 211 and Csci 223 or graduate standing

## Instruction Type(s)

• Lecture: Lecture for Csci 526

### **Subject Areas**

• Computer and Information Sciences, General

### **Related Areas**

- Artificial Intelligence
- Information Technology
