

Chem 554: Analytical Environmental Chemistry CHEMISTRY & BIOCHEMISTRY

This course will focus on the analytical chemistry of pollutants and instrumental techniques used to identify and quantify them. 3 Credits

Prerequisites

• Pre-requisite: Chem 469 with minimum grade of C or Graduate standing.

Instruction Type(s)

• Lecture: Lecture for Chem 554

Subject Areas

- Environmental Chemistry
- Analytical Chemistry

Related Areas

- Chemical Physics
- · Chemistry, General
- Forensic Chemistry
- Inorganic Chemistry
- Organic Chemistry

about the accreditation.

• Physical Chemistry • Theoretical Chemistry
