

## Csci 353: Introduction to Numerical Methods

### COMPUTER & INFORMATION SCIENCE

Numerical solution of problems; problem analysis, algorithm design, coding, testing, interpretation of results; use of software packages on mainframe computers.

3 Credits

#### Prerequisites

- [Math 263: Unified Calculus & Analytic Geometry III](#) \$target.descriptions.MinimumGrade\$
- Csci 111 or Csci 251

#### Instruction Type(s)

- Lecture: Lecture for CSCI 353

#### Subject Areas

- [Computer Science](#)
