

## G E 460: Fundamentals of Waste Management GEOLOGY & GEOLOGICAL ENGINEERING

The fundamentals of managing and disposing of waste materials. Emphasis on the geological and geotechnical aspects of disposal by burying in the subsurface, and on elements of geophysics.

3 Credits

## **Prerequisites**

• Pre-Requisite: 24 Earned Hours

## Instruction Type(s)

• Lecture: Lecture for G E 460

## **Subject Areas**

• Geological/Geophysical Engineering
