

## **Csci 387: Software Design and Development**

### **COMPUTER & INFORMATION SCIENCE**

Study of techniques for the construction of large, complex software systems, including project management, requirements analysis, specification, design, development, testing, documentation, deployment, and maintenance. Students develop software systems in a group structure that simulates an industrial setting.

3 Credits

#### **Prerequisites**

- [Csci 211: Computer Science III](#) (Minimum grade: C-)
- [Csci 223: Computer Org. & Assembly Language](#) (Minimum grade: C-)

#### **Instruction Type(s)**

- Lecture: Lecture for Csci 387

#### **Subject Areas**

- [Computer Science](#)
