

## B.S. in Histotechnology (2+2)

The B.S. in histotechnology (a 2+2 program with the University of Mississippi Medical Center) prepares students to be a health care professional that processes and prepares human and animal tissues to be observed by various forms of microscopy. Following proper tissue preparation, a histotechnologist stains tissue for routine and special identification of bacteria, fungi, cancer, and tissue structure abnormalities for pathological diagnosis.

## Minimum Total Credit Hours: 125 Course Requirements

The curriculum for the B.S. in histotechnology is a two-phase program consisting of a two-year, 60-hour academic program in the College of Liberal Arts with a 2.5 minimum GPA on the Oxford campus. The second phase for those admitted is a two-year, five-semester formal didactic and clinical education at the University of Mississippi Medical Center (UMMC) in Jackson. Students must meet minimum criteria to apply for UMMC by March 1 of sophomore year, and admission is competitive, with qualified residents of Mississippi receiving first priority. For further admissions information, go to https://www.umc.edu/shrp/Programs/Bachelor%200f%20Histotechnology/Admissions/Requirements.html

Courses	Semester Hours
Writ 101 and 102 (or Liba 102)	6
Bisc 206, 207 Anatomy and Physiology	8
Math 121 College Algebra or higher	3
Humanities and Fine Arts	9
Social or Behavioral Science	6
Bisc 210 Microbiology with lab	4
Bisc 160/161 Biological Sciences with lab	4
Chem 105/115 & 106/116 General Chemistry with lab	8
Electives	12

The University of Mississippi is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award certificates and baccalaureate, master's, specialist, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, call 404-679-4500, or visit online at www.sacscoc.org for questions about the accreditation.
