

# Ch E 560: Advanced Transport Phenomena I Chemical Engineering

Development and use of the equations of conservation of mass, energy, and momentum in continuous materials. The use of detailed and integral balances. 3 Credits

#### **Prerequisites**

• Prerequiste: Junior standing (60 hr).

## **Instruction Type(s)**

• Lecture: Lecture for Ch E 560

### **Subject Areas**

• Chemical Engineering

#### **Related Areas**

• Chemical and Biomolecular Engineering
