Engs 610: Telecommunication Network Engineering
School of Engineering

Team design project developed in cooperation with industry. Students accomplish the design and document the results in a report and in an oral presentation.

3 Credits

Prerequisites

- Engr 653: Computer Structures (Minimum grade: C)
- Engs 603: Analysis of Algorithms (Minimum grade: C)
- Engs 606: Computer Networks (Minimum grade: C)

Instruction Type(s)

- Lecture: Lecture for Engs 610

Subject Areas

- Laser and Optical Engineering
- Computer Science
