

## Csci 353: Introduction to Numerical Methods Computer & Information Science

Numerical solution of problems; problem analysis, algorithm design, coding, testing, interpretation of results; use of software packages on mainframe computers.

3 Credits

## **Prerequisites**

- Math 263: Unified Calculus & Analytic Geometry III \$target.descriptions.MinimumGrade\$
- Csci 111 or Csci 251

## Instruction Type(s)

• Lecture: Lecture for CSCI 353

## Subject Areas

• Computer Science
