

Chem 402: Inorganic Chemistry Laboratory Chemistry & Biochemistry Synthesis, identification and study of physical and chemical properties of selected inorganic compounds.

1 Credit

Prerequisites

- Chem 402 Requires: One Way-Co-Requisite Chem 401
- Pre-Requisite: 24 Earned Hours

Instruction Type(s)

• Lab: Laboratory for Chem 402

Course Fee(s) Chemistry

• \$250.00

Subject Areas

• Inorganic Chemistry

Related Areas

- Analytical Chemistry
- Chemical Physics
- Chemistry, General
- Environmental Chemistry
- Forensic Chemistry
- Organic Chemistry
- Physical Chemistry
- Theoretical Chemistry
