

# B.S.Ch.E. in Chemical Engineering

<u>Overview</u>

### **Degree Requirements**

## Description

The B.S. in chemical engineering provides the student with a fundamental knowledge of chemical engineering science and prepares graduates for a variety of careers in industry and government, or for advanced study in engineering, business, or professional school.

#### Minimum Total Credit Hours: 128 Goals/Mission Statement Program Educational Objectives

Graduates from the Department of Chemical Engineering of the University of Mississippi, within 3-5 years after graduation, will:

- 1. Meet or exceed the expectations of employers of chemical engineers;
- 2. Continue their professional development by pursuing advanced study if they so desire; and
- 3. Continue their professional development by pursuing leadership opportunities and other positions of service in their profession and/or communities.

#### **Student Outcomes**

In accordance with ABET accreditation requirements, BSChE students at the University of Mississippi should demonstrate the attainment of the following student outcomes:

- 1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- 2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- 3. An ability to communicate effectively with a range of audiences
- 4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgements, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- 5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- 6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions
- 7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies

# **General Education Requirements**

Students must complete at least 18 hours of general education requirements: 3 hours of fine arts, 6 hours of humanities from the same department, 6 hours of social science from the same department, and 3 additional hours of humanities, social science, languages (modern, Greek, or Latin), or <u>general education</u> courses as specified by the School of Engineering with the exception that speech and math content courses may not be used to satisfy any of these required 18 credits.

## **Course Requirements**

Alternatives for 300-level technical electives: Chem 222, Manf 253, Manf 254, the combination of Bisc 160, 161, 162, and 163. In the case of the Bisc 160-163 series, the student must take all 8 credits to fulfill the requirement for one 3-credit technical elective. A maximum of 3 credits of Ch E 330 may be used to satisfy one of the technical elective requirements.

#### **Other Academic Requirements**

Students in the Department of Chemical Engineering are encouraged to take the Fundamentals of Engineering examination prior to awarding of the baccalaureate degree.

# Specializations

- Emphasis Biotechnology
- Emphasis Environmental
- Emphasis Manufacturing
- Emphasis Materials
- Pre-Med Option
- Standard Option
