

# Csci 256: Programming in Python Computer & Information Science

Problem solving, algorithm development, and programming techniques, including applications from a range of disciplines. 3 Credits

## **Prerequisites**

• Prerequisite: Minimum ACT mathematics score of 22; or minimum SAT mathematics score of 540; or Math 121 or above; or ALEKS PPL score of 61.

#### **Cross-listed Courses**

• CIS 256: Programming in Python

# Instruction Type(s)

• Lecture: Lecture for Csci 256

• Lecture: Web-based Lecture for Csci 256

### **Subject Areas**

• Computer Science
