Csci 475: Introduction to Database Systems

Computer & Information Science

This course introduces database systems covering basic concepts and best practices. Topics include data models (e.g., relational, object- oriented, NoSQL), normalization, SQL, security and privacy, current trends in data management, and web-to-database application programming.

3 Credits

Prerequisites

- Pre-Requisite: 24 Earned Hours
- Prerequiste: Csci 211 or CIS 211 or Csci 343 or graduate standing.

Instruction Type(s)

- Lecture: Lecture for Csci 475

Subject Areas

- Computer Science
