

Phcy 481: Pharmacy Practice Applications I

School of Pharmacy

This course provides students with the experience of applying the pharmacy practice components taught throughout the first-year professional pharmacy courses. The course emphasizes active learning for integration and application of curricular content and incremental development of professional and general abilities. Students will experience learning activities to develop skills in patient-centered care while serving as collaborative interprofessional team members. Learners will develop, integrate, and apply knowledge from the foundational disciplines (e.g., pharmacy administration, pharmaceuticals, and clinical sciences) to provide a foundational knowledge of community- centered pharmacy practice prior to their introductory pharmacy practice experiences.
