

# Engr 546: Micro/Nanoscale Fabrication

## [Mechanical Engineering](#)

Introductory course on the physical theory, design, analysis, fabrication, and characterization of micro/nanoscale fabrication and manufacturing.

3 Credits

### Prerequisites

- Senior standing required.

### Instruction Type(s)

- Lecture: Lecture for Engr 546

### Subject Areas

- [Manufacturing Engineering](#)
- [Materials Engineering](#)
- [Mechanical Engineering](#)
