

Envs 333: Natural Sciences for Envs Minors

[College of Liberal Arts](#)

Where offered, this course enables students to enroll in an upper-level Envs-approved biology course without having met the prerequisites otherwise expected for that course. Students enrolled in an Envs 333 section of a biology course will complete an altered version of the course material, with a reduced expectation of their scientific background.

May be repeated once for credit if the content is different. Credit hours may vary.

1 - 3 Credits
