

## C E 417: Construction Engineering and Management Civil Engineering

Planning, estimating, and scheduling of civil engineering construction projects; procurement, specifications, bids, and contracts; construction cost control methods; program evaluation and review technique; scheduling techniques including critical path method (CPM) and line of balance (LOB); computer applications.

3 Credits

## **One-way corequisites**

• C E 315: Civil Engineering Materials

## Instruction Type(s)

• Lecture: Lecture for C E 417

## **Subject Areas**

- Civil Engineering, General
- Construction Engineering Technology/Technician
