

# C E 542: Flow in Porous Media Civil Engineering

Steady, homogenous flow; prediction of transport properties; wells, seepage, drainage, re-charge; nonhomogenous flow. 3 Credits

### **Prerequisites**

• Pre-requisite: Engr 323 or Graduate Standing

## **Instruction Type(s)**

• Lecture: Lecture for C E 542

#### **Subject Areas**

- Civil Engineering, General
- Water Resources Engineering

#### Related Areas

- Civil Engineering, Other
- Geotechnical and Geoenvironmental Engineering
- <u>Structural Engineering</u>
- Transportation and Highway Engineering
