

C E 481: Transportation Engineering I

Civil Engineering

Major transportation modes and their characteristics; mechanics of motion; geometric and intersection design; traffic flow theory; probabilistic methods; capacity analysis; planning models; environmental impact analysis; economic evaluation; Intelligent Transportation System (ITS) and computer applications.

3 Credits

Prerequisites

- [C E 207: Surveying](#) \$target.descriptions.MinimumGrade\$
- [C E 208: Civil Engineering Graphics I](#) \$target.descriptions.MinimumGrade\$

Instruction Type(s)

- Lecture: Lecture for C E 481

Subject Areas

- [Civil Engineering, General](#)
- [Transportation and Highway Engineering](#)

Related Areas

- [Civil Engineering, Other](#)
- [Geotechnical and Geoenvironmental Engineering](#)
- [Structural Engineering](#)
- [Water Resources Engineering](#)
