

Edec 321: Early Childhood Development I

Teacher Education

This course will focus on the areas of development and learning that have relevance for early childhood educators. It will provide an understanding of the development (cognitive, affective, psychomotor, social) that takes place in children, birth to 8 years old, and also the ways in which these developments can be affected by a variety of factors. Developmentally appropriate practices that promote development and learning will be stressed.

3 Credits
