

# Csci 256: Programming in Python

## Computer & Information Science

Problem solving, algorithm development, and programming techniques, including applications from a range of disciplines.

3 Credits

### Prerequisites

- Prerequisite: Minimum ACT mathematics score of 22; or minimum SAT mathematics score of 540; or Math 121 or above; or ALEKS PPL score of 61.

### Cross-listed Courses

- [CIS 256: Programming in Python](#)

### Instruction Type(s)

- Lecture/Lab: Lecture/Lab for Csci 256
- Lecture/Lab: Web-based Lecture/Lab for Csci 256

### Subject Areas

- [Computer Science](#)
