

## **M E 326: Machine Learning for Engineers**

### **[Mechanical Engineering](#)**

This course covers an introduction to python programming followed by an overview of machine-learning tools used for real-world applications. The course also teaches how to implement machine-learning tools for a wide range of engineering data sets.

4 Credits

### **Prerequisites**

- Junior Standing Required

### **Instruction Type(s)**

- Lecture: Lecture for M E 326

### **Subject Areas**

- [Mechanical Engineering](#)
