

Bisc 162: Biological Sciences II

Biology

"This course is a continuation of Bisc 160. It is a comprehensive treatment of the major principles of modern biology, including a general consideration of embryonic development, anatomy and physiology of plant and animals, principles of ecology and a survey of biodiversity. Intended primarily for biology majors and minors, and other science majors, including pre-professional biomedical and pharmacy students. (3 lecture hours).

Applies to the science requirement of the core curriculum.

3 Credits

Prerequisites

- [Bisc 160: Biological Sciences I](#) (Minimum grade: C)
- [Bisc 161: Biological Sciences I Laboratory](#) (Minimum grade: C)

Corequisites

- [Bisc 163: Biological Sciences II Laboratory](#)

Instruction Type(s)

- Lecture: Lecture for Bisc 162

Subject Areas

- [Biology/Biological Sciences, General](#)

Related Areas

- [Biomedical Sciences, General](#)
